

# Trent River Cruises

## WHY US?

*Large enough to Cater*

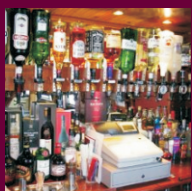

*Small enough to Care*

Did you know that our riverboat, The Trent Lady, is the only passenger boat on the River Trent that fully caters on-board for up to 60 passengers? That's a fact that's hard to believe at times when you see the quality of the food that is served from our galley.

Our new riverboat, The Nottingham Crusader, was originally commissioned for the St. John Ambulance's Water Wing and is the only truly disabled-friendly trip boat on the River Trent that can carry up to 40 passengers.

The Trent Lady also boasts the most impressively well stocked bar of any trip boat on the river and for that matter, the most comprehensive range of cruises for Corporate, Social, Private and Educational uses.

***The main reason? All of our staff have years of experience in either event management, catering or entertainment and all share the one goal; to ensure that your time with us is as pleasurable as we can possibly make it.***
